

FOR IMMEDIATE RELEASE

## **Frontline® Awarded an ISO 9001:2008 Management System Certificate**

Charlottesville, Virginia, USA – May 21<sup>st</sup>, 2015 – Frontline Test Equipment, Inc. is pleased to announce it has been awarded the [ISO](#) 9001:2008 Management System certificate by the SRI Quality System Registrar in Pittsburgh, Pennsylvania for both the design and manufacture of protocol analysis products for the personal area network and data communications markets, and for testing and debugging of data communication protocol implementations and user interfaces on third party devices.

ISO certification is based on quality management principles including strong customer focus, motivation and implication of top management, the process approach, and continual improvement and review. The goal is to insure customers receive consistently high quality products and services. Frontline is committed to providing the highest quality test tools, but also world class testing services. Being ISO certified means our customers can have confidence Frontline is committed to quality and outstanding customer service.

“We are extremely proud of our team and their efforts to attain the ISO 9001 certification” says Dan Tuck, Vice President - Engineering. “It means that quality is not just a concept, but a reality. Our policies and procedures document that, but our people show it in how they work – and particularly in how they engage with our customers. ISO 9001 certification reflects our commitment to quality and our commitment to our customers.”

According to Edward L. Maschmeier, Director, Certification: “We are pleased to acknowledge that Frontline Test Equipment has demonstrated effective implementation of a management system. ISO 9000 certification provides evidence to customers, suppliers, employees, and their community of their commitment to producing a quality products and providing customer satisfaction.”

### **About SRI**

ISO 9001:2008 is process-based; certification recognizes organizations that can link business objectives with operating effectiveness. Companies that achieve management system certification to ISO 9001:2008 have demonstrated effective implementation of documentation and records management, the company’s commitment to their customers, establishment of clear policy, good planning and implementation, good resource management, efficient process control, measurement and analysis. Continual improvement has been institutionalized.

SRI Quality System Registrar is an internationally accredited registrar for management systems standards, such as ISO 9001, AS9100, ISO/TS 16949, OHSAS 18001, ISO 13485, ISO 20000-1, ISO 27001, ISO 22000 and environmental management systems standards such as ISO 14001, RC14001, and RCMS. SRI also provides public training for auditing, implementing, and maintaining these standards.

### **About Frontline**

Frontline is the world’s leading provider of [Bluetooth protocol analysis](#) test tools and packet sniffers. The ComProbe® family of analyzers spans a wide range of technologies – *Bluetooth* (Classic and low energy), 802.11 (Wi-Fi), NFC, USB, SD/SDIO, and High Speed UART (HSU). Frontline’s ComProbe line of

*Bluetooth* analyzers are the industry standard and are used by hundreds of companies globally including CSR, Broadcom, Atheros, Apple, Nokia, Samsung, Sony, Toshiba, Panasonic, and Marvell. 84 out of the Fortune 100 companies use Frontline. Frontline's technology has been integrated into the Bluetooth SIG's Performance Tuning Suite (PTS) qualification tool which is the system used to determine if a product meets *Bluetooth* interoperability standards.

Frontline is the premier [Bluetooth device testing](#) (interoperability, robustness, etc.) and [Bluetooth services](#) house, maintaining the world's largest *Bluetooth* device library for use in its testing service organization. Companies developing devices can augment their engineering and quality assurance departments using Frontline testing service – from technology consultation, to device interoperability testing, to full turnkey product testing and management, Frontline offers testing services that help strengthen our customer's brands and help them to find, troubleshoot, and resolve device issues fast.
