

Frontline *Bluetooth*[®] Interoperability Testing Services

Who should test your *Bluetooth* wireless technology devices,

the company that uses the industry-standard analyzers...

or the company that *designed* them?

The experts that brought you the premier *Bluetooth* communications diagnostic tools now offer their unparalleled testing know-how to you. With Frontline *Bluetooth* Interoperability Testing Services, you can be confident your *Bluetooth* products will be more robust, more reliable, and fully compatible with current industry devices and standards – all at a minimal expense.

For more information, call **800.359.8570**, email testing@fte.com or visit us on the web at www.fte.com/testservices.
